Bring the Big Screen Experience Everywhere

FEATURES

- Ideal for carrying around thanks to its thin streamlined design, a 460g lightweight size and an embedded battery that lasts up to two hours
- Share a big screen with family and friends with up to 100-inch diagonal projection and HD720p resolution
- Built-in wireless connection for cable-free projection of your iOS or Android mobile devices with mirroring function
- Enjoy great audio performance with its integrated dual-2W stereo speakers or Bluetooth pairing to a compatible sound system at home
- Experience extra-large viewing with quick access to your favorite movies or shows via the preloaded online content provider app
- Entertaining on the go is made possible thanks to its PC-Free Reader to preload media and document files to display without a computer at source
- Powerful 1.5GHz quad-core CPU running Android™ v.4.42 operating system with 8GB onboard memory. Beyond the operating system's onboard memory, a MicroSD or USB flash drive – purchased separately - can be utilised to provide an additional 64GB memory (for preloading media content for viewing later)
- Automatic vertical keystone correction enables a nice widescreen image from many angles
- Maintenance free with environmental friendly LED light source lasts up to 30,000 hours

Play games, watch videos, movies and television programs with this small projector

Qumi Q3 Plus is a powerful bright pocket size projector with integrated battery, Wi-Fi and Bluetooth to make it easy to instantly switch on and enjoy a 2.6m/100" diagonal screen anywhere you want. Turns any content from a mobile phone, tablet or game station into a large screen projection instantly. The embedded Wi-Fi lets connect and project without cable hassle. Just switch it on and mirror the phone screen!
